THE BUILDING RENTED. The Aultman-Miller Company Coming Here

With a Big Branch,

The Aultman-Miller manufacturing company of Akron, Obio, has finally con cluded to identify themselves with the Peerless Princess of the west with a branch iouse. This company, as everyone posted in manufacturing interests knows, is one of the largest in the United States, and a anch of their house will be a valuable addition to the commercial interests of Wichita. M. Rebstein has been bere and made complete arrangements for the loca-tion, so the company may be in running order to catch the spring trade. The company is a big and wealthy institution and being identified with Wichita they will, no doubt, help the city wonderfully. is Miller, the junior partner in the firm, is worth \$10,000,000, and is the father-in-law of Thomas A. There was considerable talk yesterday nong machine men that the McCormick cople are coming here also. It would em, perhaps, to some that machine men would not be particularly auxious for oposition companies to come here, but that a mistake. On the contrary, every machine man now in the city is hoping that all the other companies will come, for by that means Wichita will become an established implement market and have a still greater prestige. They know, also, that later, and the sooner the better. Wichita is big enough to hold them all, and she has a commercial territory that will support every one of them.

THE STOCK YARDS AND RATES.

The past week witnessed a very large falling off in the receipts of hogs. The reason for the light run this week is to a great extent the inclement weather which has prevailed all week. Farmers, in such Mead, weather, are slow to deliver hogs to the shippers, and the shippers in turn are slow to ship in weather like that of the past The prices of hogs were at a standstill for the first few days of the week, but an advance has been noted since Wednesday and at the close of the market last night, the top price paid was \$4.45 for a load of medium grade hogs. The packers are both anxious for more hogs, and 1,500 to 2,000 head of hogs per day could have readily been sold here during the past week. More hogs are needed and good prices are being paid for them.

The cattle market has been satisfactory this week, and dispite the prevailing weather, the receipts of cattle for th week have been fair, and considerable trading was done in the cattle division

during the week. The rate question has been watched with much interest for sometime by commission men and shippers alike. The fact that the news came from Topeka sometime ago, saying that the rates would go into effect on the 20th, caused all to be on tiptoe of attention. med from the eastern markets. Observer Fred L. Johnson of the signal department and Mr. Chipchase, manager of the Missouri and Kansas³ Telephone company, have put their heads together and the result of their confab will be a great benefit to Southern Kansas. For a long time Mr. Johnson has nursed the idea that it would be a grand thing for the people of Southern Kansas if they could have the signal service entended to within their reach. Accordingly, he proposed to Mr. Chipchase to consider a proposition to ex-tend the reports by telephone and the lat-ter gentleman consented. The result will be that from now on a report can be seen every morning in the telephone offices of Mulvane, Derby, Belle Plaine, Wellington, Winfield, Caldwell, Arkansas City, Sedgwick, Newton, Halstead and Burrton. Oxford, Geuda Springs, Hunnewell, South Haven and Hutchinson can also have it if they have energy and enterprise enough to accept it. Wichita, never in her history have her material interests been in a more prosperous condition than today. Never in the same length of time have so many new business houses been started here, and it would seem that it is only the beginning. What the ELELE has claimed for years has at length come to pass, and now what has appeared so plain to the average Wichitan is beginning to be observed by outsiders. It is now a settled, absolute fact that the jobber who is ambitious of doing business in Southern Kansas must come to Wichita to do the business.

There probably never was a time in the history of any prosperous city so pregnant with possibilities as is Wichita today. It looks now as though everything would come with a rush. Hood's Sarsaparilla Rescued Their

Child from Scrofula. For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla

is an unequalled remedy. Read this: "We are so thankful to Hood's Sarvapa rilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brook-lyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became

offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or en-ergy. The sores caused great inching and burning, as that at times we had to restrain her hands to prevent scratching. For 3 years

She Suffered Fearfully with this terrible humor. Being urged to try

Hond's Sursaparilla we did so. We soon noticed that she had more life and appetite. The medicine seamed to drive out more of the humar for a short time, but it soon began to subside, the itching and burning consed, and in a few months her head became emiliarly clear of the sure. She is now perfectly well.
